Description

The FC 560 Centre Console is a serious fishing machine designed to give you the most fishability that can be packed into 5.6 meters. It has 360°degrees of fishing space as well as ample storage for fishing and diving gear along with fold away seating for even more versatility and fishing comfort for all the crew.

Its front[FC Ballast Tank](#)and[FC Extended Gunnel](#)shelp for a smoother, dryer ride when the going gets tough and once you get to that special fishing spot, the[FC Flooding Chamber](#) fills, giving you an incredibly stable fishing platform. With standard features like welded in HD alloy rod holders and a large[FC Passive Live Bait Tank](#), the FC 560cc will help you target any fish species you desire.

We have personally tested the FC 560cc on both the east and west coasts and up to 60 miles off Raglan and have safely put this boat through water not many would venture out in and its always behaved consistently and reliably with the comfit of a much larger craft.

If you are looking for a serious sportfishing machine that you can customise with all the latest trimmings and accessories or simply a great fishing/diving boat, the FC 560cc won't disappoint.
